### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 3 of claim 20, please remove the second consecutive incidence of the word "composition".

### ***Allowable Subject Matter***

Based on the Examiner's indication of allowable subject matter in claims 17 and 20, Applicant has rewritten these claims in independent form with claim 20 containing all of the limitations of claim 16. Both of these claims recite a method of making a dental prosthesis or dental restoration. The relevant prior art of record, *Priou et al.*, only contemplates the composition disclosed therein as a coating material for varied substrates ranging from textiles to optical fibers. There is no suggestion whatsoever that the prior art composition would be suited for the aforementioned applications hence claims 13-14 and 17-20 are now considered allowable.

As an aside, it is acknowledged that the present claims recite an invention very similar in scope with that which is claimed in co-pending application serial no. 10/933,537. However, insofar as the present application has an earlier effective filing

date, it is allowed without a requirement for a terminal disclaimer with respect to the copending application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
